

COMMON CORE (CC) FACT SHEET

1 NO cost analysis was done before Michigan adopted CC.

The state of Texas estimated a \$3 Billion cost to taxpayers and is one of 3 states to decline Common Core.

2 Cost of CC to local districts will increase property taxes.

3 Little public or legislative input was used to consider CC.

4 WE LOSE local control of testing under CC & the Smarter Balanced Assessment Consortium (SBAC).

Our Governor and State Board have ceded control of testing to a federal testing arm, the SBAC.

5 WE LOSE local control of education standards with CC.

6 WE LOSE the ability to amend standards Michigan disagrees with under CC.

7 Several states are trying to get out of CC because of both the financial cost to taxpayers & the loss of state sovereignty.

8 Your child's academic & psychometric data will be collected & accessible to the Executive Branch. This is illegal.

9 CC doesn't give Michigan anything we don't have. We can get higher standards without federal mandates.

Fact: WE LOSE FREEDOM with Common Core!

**Call the Governor & your state school board members.
Tell them to get us out of Common Core NOW!**

Governor: 517-373-3400 • State School Board: 518-373-9434
